DAFRA

Contact Technology

**Discover how the superior quality  
of our precision stamped and  
composite components  
can enhance your products**

At **DAFRA**, we specialise in developing and manufacturing **precision progressive-stamped and composite components**.

With over 40 years of experience, we combine cutting-edge technology and a highly skilled team to deliver innovative, reliable, and **customised solutions** that meet the unique needs of our customers.

# PRODUCTS

## Mastering Metal and Composites

Our core expertise is in **precision progressive stamping and plastic injection moulding.**

We produce components that meet tight tolerances, maintain consistent quality, and feature intricate geometries. With decades of experience, we work with various materials across diverse industries, delivering customised and cost-effective solutions with minimal waste and maximised performance.

**We can manufacture precision progressive stamped parts to your exact specifications, ensuring high quality and consistency for your products.**

### **Material**

copper, steel, stainless steel, brass, aluminium, bronze and special copper-based materials

### **Minimum Batch Size**

10.000 pieces  
(batch production)  
or as agreed upon

### **Thickness**

from 0,10 mm  
to 2,5 mm

### **Stamping Presses**

Ranging from  
12T to 63T

**PROGRESSIVE STAMPED PARTS**

**Our injection moulding capabilities, from micro to standard, allow us to create lightweight, durable, and cost-effective composite components for your needs.**

**Standard injection moulding**  
3-30 g/pc

**Micro-injection moulding**  
< 0,5 g/pc

**Clamping force:**  
Ranging from 25T to 50T

**COMPOSITES**

**OUR WORK**

# OUR SERVICES

## Innovative Solutions, Precision Results

### TOOL DESIGN

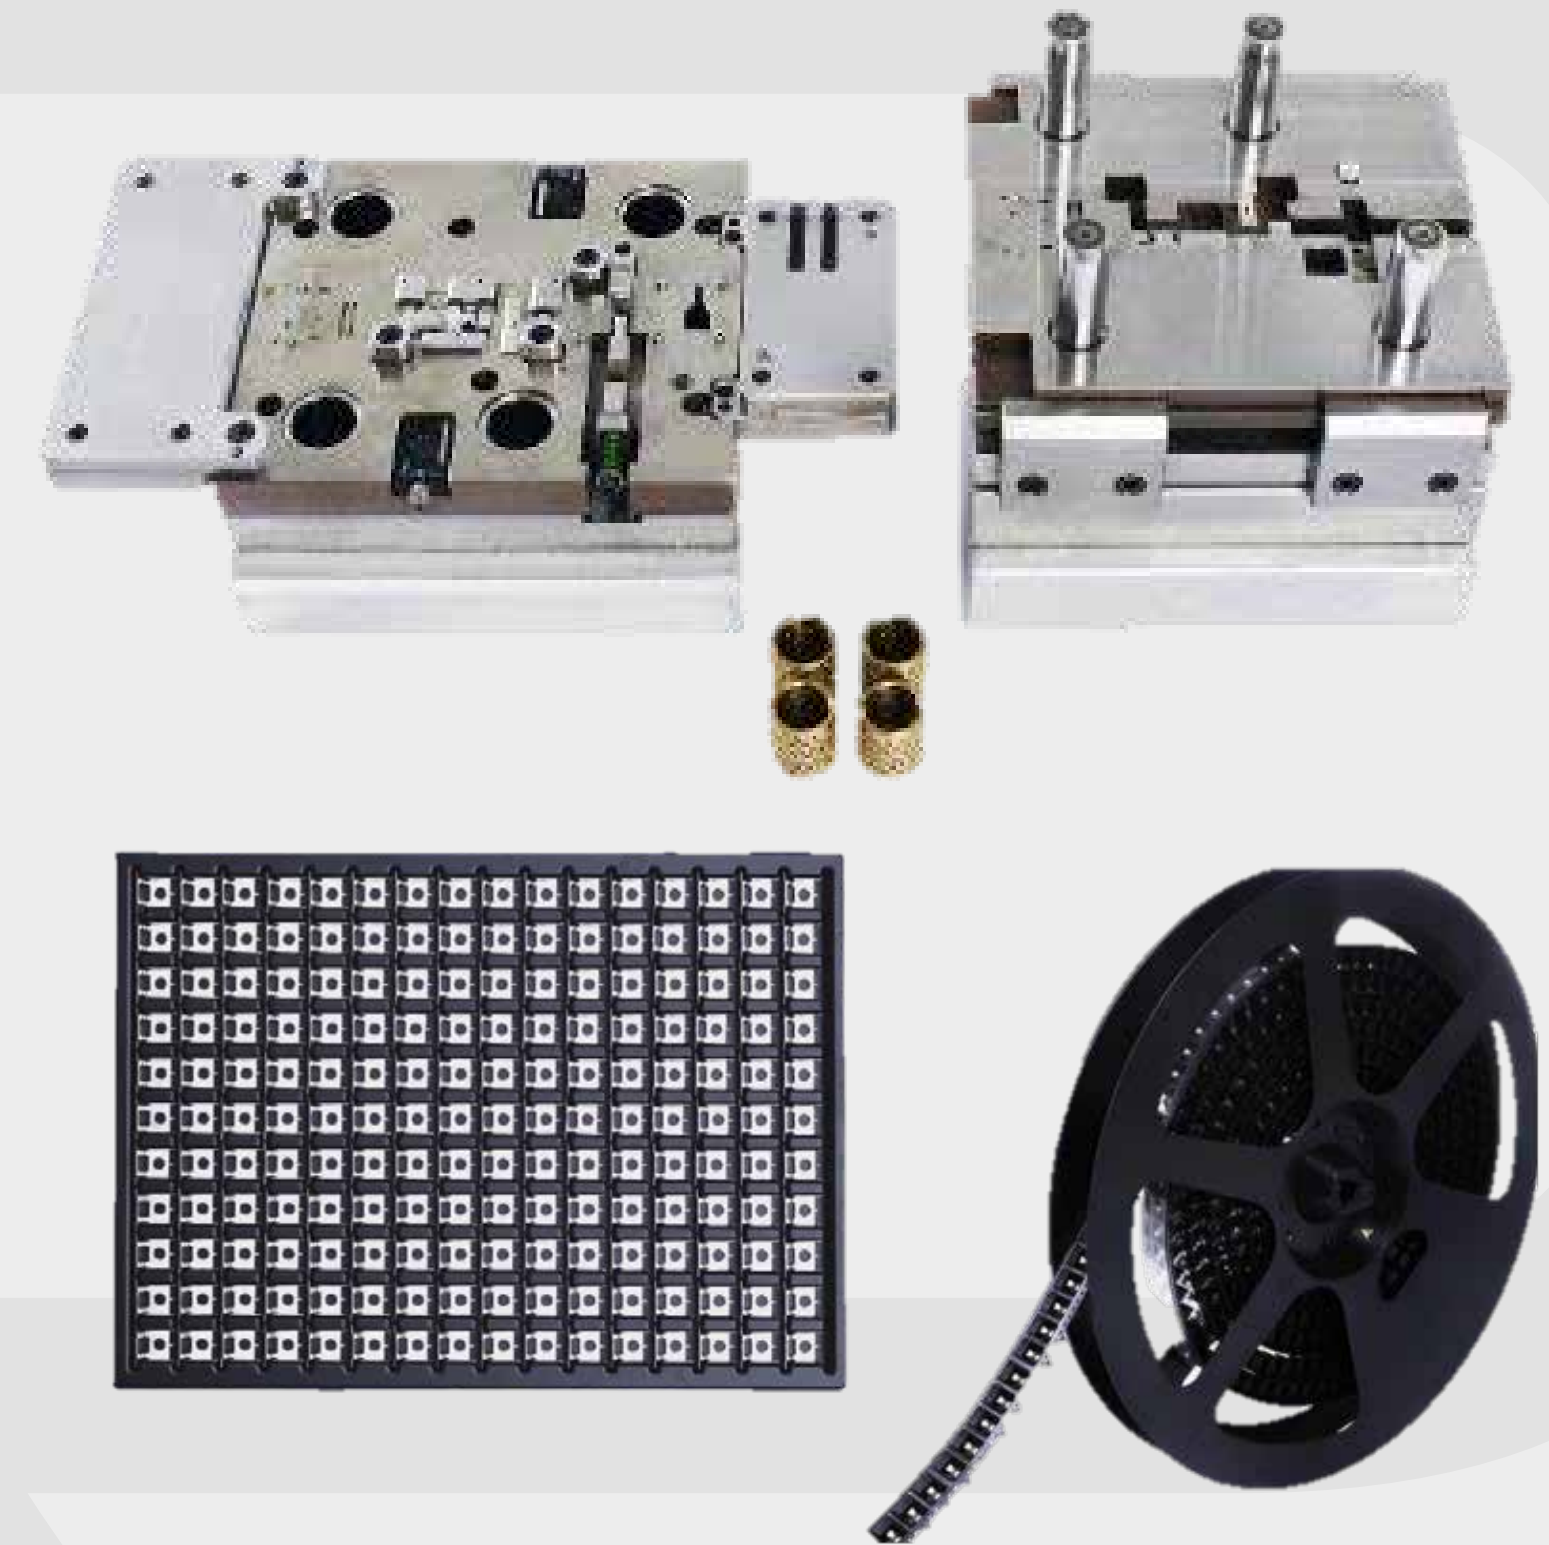

### MANUFACTURING

- prototype manufacturing
- batch production

### SURFACE TREATMENT

### PACKAGING

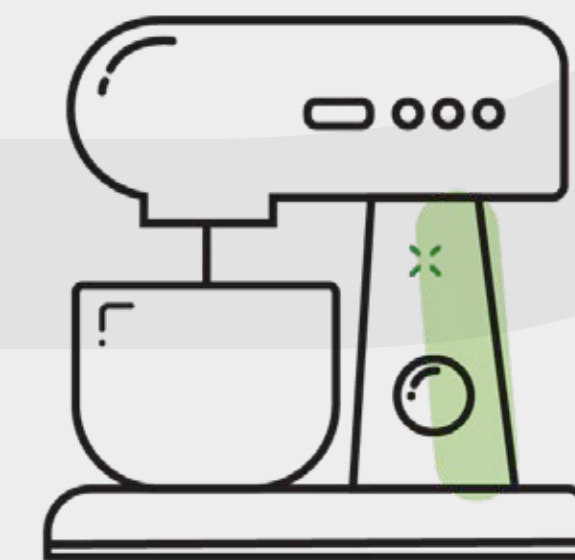

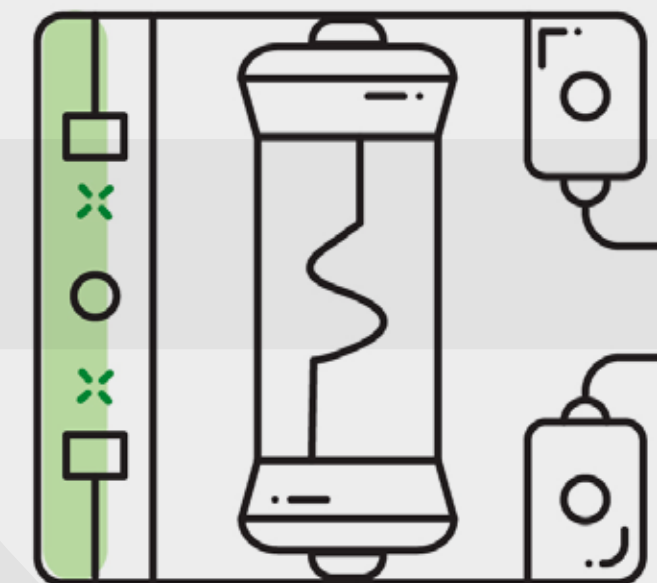

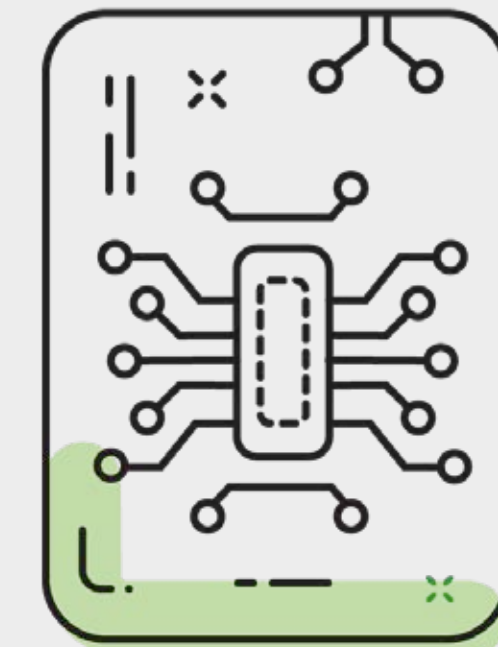

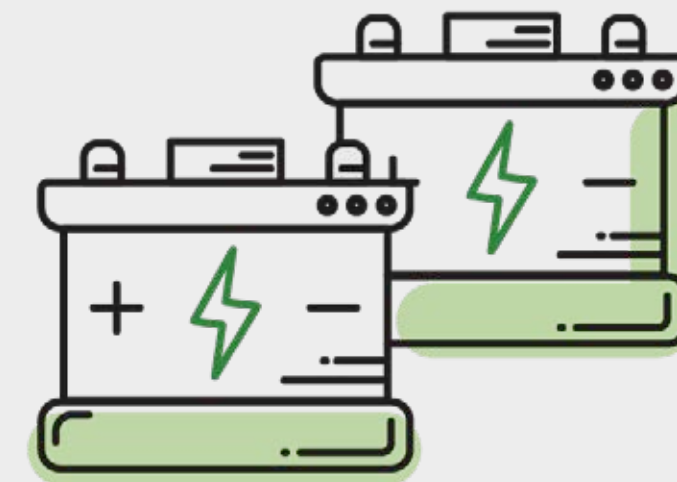

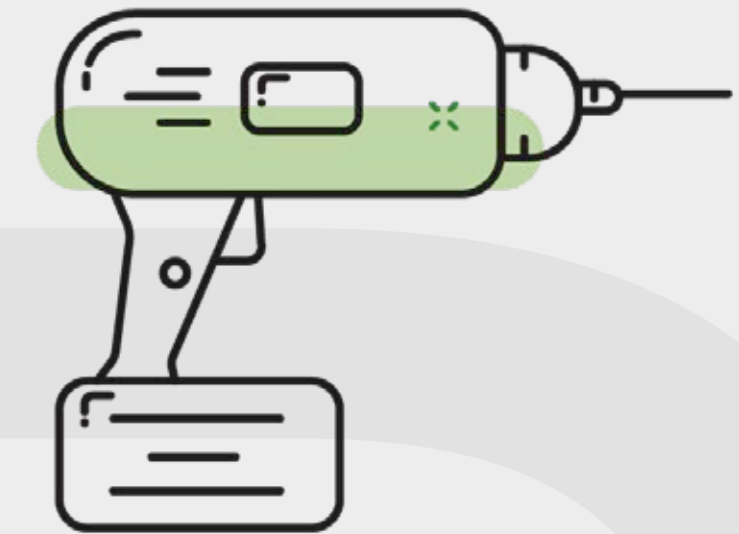

- card boxes,
- returnable boxes,
- custom trays,
- tape & reel packaging for SMT and THT

# INDUSTRIES

## Global Reach, Local Expertise

We are a reliable partner for companies across a wide range of industries. Our extensive experience allows us to effectively apply our knowledge to tool design and product manufacturing for our clients.

# Ready to enhance your products?

With over 40 years of experience, a highly motivated team, and a commitment to responsiveness and flexibility, we streamline your supply chain, reduce costs, and deliver the best price-performance ratio, all while maintaining the highest quality standards.
